

SafeTac UM1 - P Programmable Internal AC/DC VRD

N.A.T.A. Tested internally fitted VRD , AC/DC & Reverse polarity applications.

Same as UM1 but with AC/DC Sensing & programmable VRD turn on time .

Wide range input 10 to 140 VAC /VDC

Uses same module as UM1 - AB so it can be upgraded to a UM1 - AB by simply adding a contactor

VRD Turn on time : 300Ms (Programmable)

Input Volts 10 to 140 VAC / VDC

Internal device switching current 16 Amps VAC

Indication : Green Low OCV VRD on Red or Flashing red high OCV.

Shipping package : Length : 220mm Width : 160mm Height : 77mm

Weight : 1.1 Kilo
